Remote control function and explanation

Do not swift forward/backward button when car is driving, or will damage the motor.
Remote control can be used normallywhen battery assembled.
Remote control should be usedunder adults’ supervision.
Remote control is prior to man control.

How to adjust R/C frequency:
Long press forward and backward button for 3 seconds, and the speed indicator flashes. Then turn on the power, the speed indicator goes to long bright, means the connection successfully. If the speed indicator no response, means the connection failed. Replace the batteries and retry.

Remote control battery operation

Take off the battery cover. Put two AAA1.5V remote control battery in with right polarity.
New and used batteries can not be used mixed.
Do not insert batteries into wrong polarity, or will be short-circuited.
Non-rechargeable batteries can not be recharged. Exhausted batteries should be replaced by adults.
The exhausted battery must be handled and operated properly by adults only. Do not be played by children.

Installation Order Diagram

1. Installing front axle

First, assemble the front axle as the first picture one step by one step, then turn over it and pass it through the direction lever hole, fix the front axle with 8pcs M4*16 as the second picture. At last, fix the direction lever with washer and cotter pin like the third picture.

2. Installing rear axle

First turn over the motor fixing device, remove the screw on the shock spring, and then fix it.

3. Installing rear wheel

First distinguish the left and right motors from the front and rear wheels. Put the motor, rear wheel and gasket into the rear axle and fix the cap with screws.

4. Installing front fender and bracket

Distinguish the left and right pedals, align the position of the vehicle body and fix it with screws, distinguish the left and right wheel covers, align the position of the vehicle body and fix it with screws.

5. Installing front wheel

Washer, front wheel and washer are assembled into the front axle, fixed it with screws, then assemble the little wheel cover.

6. Installing steering wheel

Take out the steering wheel screw and fix it in the position on the body.

7. Installing windshield and rearview mirror

Align the windshield and rearview mirror with the body position and firmly clip in.

8. Installing light holder

First connect the light line between two lamp holder, then insert light hold into the right/left light holder. finally insert them into the vehicle.

9. Connecting wiring

Connect the motor wiring under the seat

Open the front engine hood and connect the battery wiring.

10. Installing seat

Use 2pcs M4x16 screw to tight the seat.

11. Installing front bumper

Insert the front bumper into the right place on the car.
